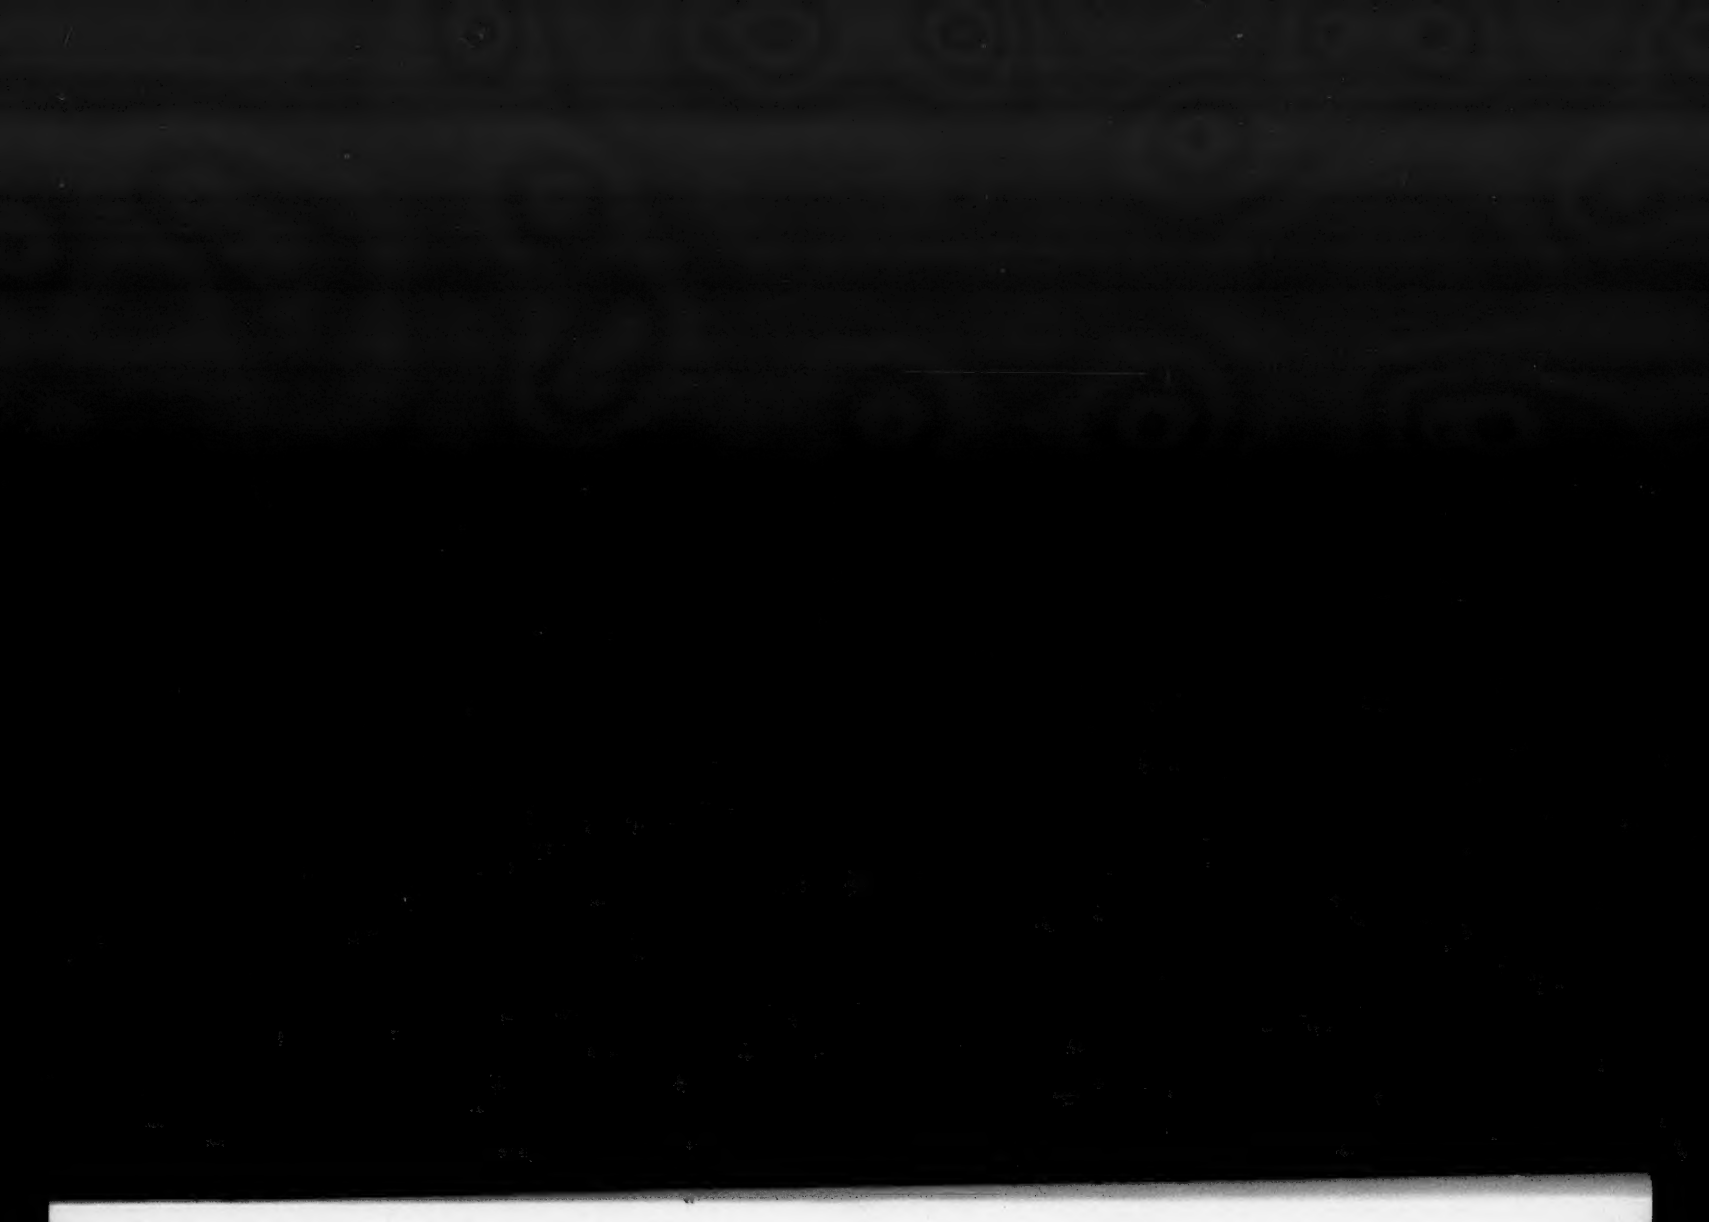
BERNSTRÖM, PETER, Increased crossability in *Lamium* after chromosome doubling 241
— Cytogenetic intraspecific studies in *Lamium*. II 381
BONNIER, GERT and LÜNING, K. G., Sex linked lethals in *Drosophila melanogaster* from different modes of x-ray irradiation 193
BÖCHER, TYGE W., LARSEN, KAI, and RAHN, KNUD, Experimental and cytological studies on plant species. I. *Kohlrauschia prolifera* and *Plantago Coronopus* 289
CASPERSSON, T., FREDRIKSSON, T., and THORSSON, K. G., A microplanimeter for measurement of endonuclear structures 201
EHRENBERG, L., GUSTAFSSON, Å., LUNDQVIST, U., and NYBOM, N., Irradiation effects, seed soaking and oxygen pressure in barley 493
GRANHALL, I., X-ray mutations in apples and pears 149
GUSTAFSSON, ÅKE, The cooperation of genotypes in barley 1
HAGBERG, ARNE, Heterozygosity in erectoides mutations in barley 161
— Heterosis in barley 325
— Further studies on and discussion of the heterosis phenomenon 349
HALLQVIST, CARL, Change of dominance in different genic environments 236
HÅKANSSON, ARTUR, Endosperm formation after $2x$, $4x$ crosses in certain cereals, especially *Hordeum vulgare* 57
JOHANSSON, IVAR, A new type of achondroplasia in cattle 75
KÖLMARK, G., Differential response to mutagens as studied by the *Neurospora* reverse mutation test 270
KÖLMARK, G. and WESTERGAARD, M., Further studies on chemically induced reversions at the adenine locus of *Neurospora* 209
LAMM, ROBERT, Investigations on some tuber-bearing *Solanum* hybrids 97
LEVAN, ALBERT and HAUSCHKA, THEODORE, S., Nuclear fragmentation — a normal feature of the mitotic cycle of lymphosarcoma cells 137
LUNDHOLM, ELISABETH and EHRENBERG, LARS, Effects of X-rays on the precipitability of diphtheria toxin 489
LUNDQVIST, ARNE, Inbreeding in autotetraploid rye 19
LÖVE, ASKELL, Subarctic polyploidy 113
LÖVE, DORIS, Cytotaxonomical remarks on the Gentianaceae 225
MELANDER, Y. and KNUDSEN, O., The spermiogenesis of the bull from a karyological point of view 505
NILSSON, HERIBERT, Über die Entstehung der Selbstfertilität beim Roggen 65
NORDENSKIÖLD, HEDDA, A genetical study in the mode of segregation in hexaploid *Phleum pratense* 469


NYBOM, NILS, Some experiences from mutation experiments in *Chlamydomonas* 317
NYBOM, N., LUNDQVIST, U., GUSTAFSSON, Å., and EHRENBERG, L., Biological effects of X-irradiation at low temperatures 445
NYGREN, AXEL, How to breed Kentucky bluegrass, *Poa pratensis* L. 51
PLAUT, W. S., DNA synthesis in the microsporocytes of *Lilium Henryi* 438
RASMUSSON, J., Autotetraploid sugar beets. Vitality changes in subsequent generations 257
SIMAK, MILAN and GUSTAFSSON, ÅKE, X-ray photography and sensitivity in forest tree species 458
SKOVSTED, A., Some colchicine experiments with hops (*Humulus*) 156
SUOMALAINEN, ESKO, The kinetochore and the bivalent structure in the Lepidoptera 88
SYRACH LARSEN, C., Studies of diseases in clones of forest trees 179
THERMAN, EEVA, Chromosomal evolution in the genus *Polygonatum* 277
VAARAMA, ANTERO, Chromosome fragmentation and accessory chromosomes in *Orthotrichum tenellum* 305
ÅKERBERG, ERIK and BINGEFORS, SIGRID, Progeny studies in the hybrid *Poa pratensis*×*Poa alpina* 125
ÖSTERGREN, GUNNAR and VIGFUSSON, EINAR, On position correlations of univalents and quasi-bivalents formed by sticky univalents 33
